Care and Cleaning Guidelines for Ndura

General Cleaning:

A clean cotton or microfiber cloth saturated with a mixture of warm water (99%) and a mild, nonabrasive dish washing detergent (1%) can be used to clean, wiping in a vertical movement with light pressure.

Disinfecting Ndura Surface:

Using a clean microfiber cloth saturated with a solution of water (90%) and bleach (10%) is suggested to disinfect Ndura.

Approved & recommended cleaning agents:

- Windex®
- Clorox®
- Simple Green®
- Formula 409®
- Fantastic® antibacterial with Lemon Power®

All agents should be applied with a clean cotton or microfiber cloth and wiping in a vertical motion with light pressure. Always read and follow the directions specified on the label of agent packaging (Mixing agents is not suggested).

Cleaning agents/detergents should NOT contain:

Aromatic hydrocarbons, ester, ketones, halogenated hydrocarbon, or alcohol above 25%. Vinegar-based detergents should NOT BE USED.

- No solvent (e.g. Paint thinners, turpentine, etc.)
- No abrasive detergents (e.g. Baking soda etc.)
- No furniture polish
- No denatured alcohol (e.g. white spirit, etc.)
- No cleaner in combination with a brush or scrubbing
- Use of brushes and scouring pads is not suggested
- Professional cleaning solutions containing SODIUM DODECYLBENZENESULFONATE or TEA-DODECYLBENZENESULFONATE
